RE: IDE Associates, LLC.

Dear To Whom It May Concern,

As one of the Owners of Spectrum Inc. General Contracting, I would like to recommend IDE Associates, LLC. They have completed a plethora of projects for us over the past 5 years. As a General Contractor, it is imperative that our subcontractors communication and perform at the highest level, on all occasions.

Because of IDE's ability to do this, we have selected them to complete several large, high end projects, not taking into consideration the pricing. They were selected on merit. They completed these projects on time and they constantly provided feed back from the factories and suppliers to keep our Project Management team informed. Due to the size of these projects, our selection of vendors was very important and we made the right decision with IDE.

Their field staff is very knowledgeable and well behaved. Because of the sensitivity of the spaces we work in, the field staff needs to be considerate of their surroundings. IDE passes this test with flying colors. They are always a pleasure to deal with and offer many suggestions for solutions, based on their extensive experience.

IDE Associates, LLC is a great addition to any project team.

Thank You.

Sean P. Rogers
